No

² Under s 29(1) of the IPA, a person must not take any photograph of a PA/PP (whether from inside, outside or above the PA/PP) without the permission of the authority of the PA/PP. It is good practice for the Authority to give reasonable notice to the public before enforcing s 29(2) of the IPA. This may be achieved, for example, through signage, circulars, or information posted on the company website or printed on access passes.

³ This refers to the designation of authorised officers under s 30(1) of the IPA. SPF generally limits the granting of power under s 30(3)(b) to designated authorised officers because specialised technology and skills/training are usually required to assume control of the unmanned aircraft to fly it or end its flight, land it safely in the fastest practical way, or to end the flight in the fastest and safest practical way. If the Authority assesses that the power under s 30(3)(b) is critical for designated authorised officers to carry out their duties, the Authority may make the request to SPF separately, providing justifications for the request.

⁴ Under s 30(3)(a), the designated authorised officer may direct any person whom the designated authorised officer reasonably believes to be involved in the operation of the unmanned aircraft (i) to end the flight of the unmanned aircraft, or land it, safely in the fastest practicable way; or (ii) to fly the unmanned aircraft in the manner specified by the designated authorised officer.

⁵ Under s 30(3)(c), the designated authorised officer may without warrant, and with such assistance and by such force as is necessary, seize the unmanned aircraft, any component of the unmanned aircraft system for that aircraft, or any other thing, that the designated authorised officer believes on reasonable grounds (i) to be evidential material relevant to an unauthorised photography offence or (ii) needs to be seized to prevent its concealment, loss or destruction or its use in committing, continuing or repeating an unauthorised photography offence under the IPA.

 - b) furnish evidence of the person's identity;
 - c) provide the person's reason for being in the specified surrounding area.

 - a) leave the specified surrounding area;
